Professional Operators Find Themselves Puzzled to Read the Significance.

the Significance.

NEW YORK, November 12.—Transsctions in stocks underwent a decided shrinkage from the recent rate of activity to-day. Accompanying this shrinkage in business was a wavering and uncertain movement in prices. The tendency was at all times hesitating, and the market movements were exceedingly sporty and uneven.

The professional operators found themselves much puzzled to read the significance of these mixed indications, and constant shifting of operations by the room traders reflected this mood. The speculative element were disposed to work for a reaction in the morning, when it seemed that large additional sales to realize had been attracted by yesterday's signs of weakness. Later this element worked for a recovery when the realizing seemed to be completed. The rise of United States Steel to-day to 58 3-4, eclipsing by more than a point any price ever before touched in the history of the corporation, was a remarkable demonstration. Outside of Northern Pacific, the show of strength to-day was largely confined to stocks of the lower grade and smaller prices, the prominence of which is accounted a sign usually of the passing of a speculative movement into its declining stages.

The sale of \$20,000,000 of a new issue of Illinois Central bonds and the immediate closing of applications for the issue by the purchasing bankers was regarded as a proof of the healthy investment demand and of the good promise of provision facilities for the railroads in entering on new work.

The day's net changes show some striking gains, but the restraint on the movement of such prime speculative favorites as Union Pacific, Southern Pacific, St. Paul, Reading, Amaigamade Copper and American Smelting made itself felt in the tone of the Whole market.

Bonds were irregular; total sales, par value, \$4,562,000.

made itself feit in the tone of the whole market.

Bonds were irregular; total sales, par value, \$4,862,000.
U. S. bonds were unchanged on call.

Total sales of stocks to-day, 1,289,-

on call easy, 1@2 per cent; ruling rate, 1 3-4; closing bid, 1 3-4, offered at 1 3-4. Time loans dull and slightly easier; sixty days, 3 1-4; ninety days, 3 1-2; six months, 3 3-4@4. Prime mercantile paper, 4 to 4 1-2 per cent. Sterling exchange firmer, with actual business in bankers' bills at \$4.8365@ 54.833 1-8@4.83 3-8. Bar silver, 50. May a steel and 357,243 last year, and at the steel and 357,243 last year. To-day's receipts at New Orleans 18.

Cotton futures opened steady and closed steady.

DRY GOODS MARKET. NEW YORK. November 12.—The dry goods market continues to show improvement. Men's wear lines are being duplicated more freely for spring. Cotton goods continue active and firm. Cotton yarms are firm with a tendency toward higher prices on contracts. Jobbers are doing a fair buriness, and what is called an active trade for the period.

after we had received them without collision or scandal for forty years. We then aided them to attend other schools, and set apart \$200,000 toward founding a colored school for Kentucky. This was a great hardship, with all our urgent work for the mountaineers, but we already have pledges for a large portion of an adjustment fund to reimburse Berea College and to make a total of \$400,000 for the colored institution. The colored people of Kentucky are subscribing very liberally, hoping to have a school of their own at an early day.

# The Foremost Consideration

in banking should be the protection of the depositor. Our long and successful career of forty-three years, our mod-ern methods, our large capital (\$1,000,000) and surplus (\$700,000), together with the reputation of our directors and officers as experienced business men of unquestioned character and ability, is the protection WE offer. The small depositor receives the same courteous treatment as the large one.
